PROFESSIONAL SUMMARY

Dedicated Flutter Application Developer with hands-on experience in building cross-platform mobile applications using Flutter and Dart. Skilled in developing real-world apps with authentication, database integration, REST APIs, and Google Maps services. Focused on performance, scalability, and writing maintainable code. Passionate about creating user-friendly mobile applications and continuously improving development skills.

EXPERIENCE

Flutter Application Developer

2025 – Present

Shaurya IT Services (shauryait.vercel.app)

- Developed multiple mobile applications using Flutter
- Integrated Firebase and APIs for real-time data handling
- Built scalable and user-friendly mobile apps
- Focused on performance optimization and clean architecture

PROJECTS

Foodify – Food Delivery Application

- Developed using Flutter with complete user flow
- Implemented login, authentication, and database integration
- Built cart system, order placement, and tracking features
- Designed clean and responsive UI

SpendWise – Finance Management App

- Created a finance tracking app using Flutter
- Implemented Google Sign-In authentication
- Integrated cloud database for storing user data
- Built analytics-based UI for tracking expenses

Dots & Boxes Game

- Developed a strategy-based Flutter game
- Implemented AI logic using Minimax algorithm
- Designed smooth and interactive UI

Restreck – Restaurant Finder Application

- Developed a location-based mobile application using Flutter
- Implemented phone number authentication
- Designed dual login system: Restaurant Owner and User
- Integrated Google Maps API to display nearby registered restaurants
- Enabled real-time location tracking and restaurant discovery
- Built clean and user-friendly UI

Daily Mark – Attendance & Salary App

- Developed attendance tracking system using Flutter
- Implemented salary calculation based on attendance
- Used local storage (device memory) for offline functionality
- Focused on lightweight and clean UI design

EDUCATION

Higher Secondary (12th) – Appeared

2025

Kesharbai College, Danapur, Jalna

ACHIEVEMENTS

- Built and deployed multiple real-world Flutter applications
- Developed apps with authentication, database, and modern UI
- Strong practical experience in mobile app development
